

# Kandiyohi Candle Company Fall/Winter Fund-Raising Program

Kandiyohi Candle Company is a non-profit business offering hand-poured soybean wax candles and soybean-based lotions produced by developmentally disabled adults in Kandiyohi, MN.

Our candles burn cleaner, are soot free, and are made from a naturally renewable resource – soybeans! These candles not only have a great scent throw, but they also have some of the longest burn times in the candle industry. We only use coreless or cotton wicks in our candles, eliminating the chance of lead contamination.

Soybean oil naturally contains Vitamins A and E, as well as other natural emollients, making it a perfect base for skin-healing lotions! Our soybean oil based hand and body lotion will rapidly heal extra-dry skin. It is great for cracked hands and feet, and will help retain your body's moisture. With ingredients like soybean, jojoba, aloe vera, cocoa butter, and shea butter, your skin will feel smooth, soft, and rejuvenated, without the greasy feeling.
